Commercial types of mango

OSTEEN

The fruit has oblong shape, purple skin and thick rind. Its average weight exceeds 500gr. It hasn't got too much fibre in the flesh and it is well eaten with a spoon. The quality of this fruit is good.

TOMMY ATKINS

This fruit has oval or oblong shape and, with regards to its colour, a dark red blush often covers much of the fruit with green and orange-yellow accents. Its average weight is 500 to 550 gr. It has firm flesh due to fibres throughout so, it is difficult to be eaten with a spoon. The quality of this fruit is medium.

OTHER COMMERCIAL TYPES

This category called "other commercial types" includes those types of mangoes such as Keitt, Kent, Kensington, Sensation, etc. This classification is included in the Markets and Prices Observatory under the name "not designated".
